Hello everyone,
I will send the meeting information out once the agenda is created next week.
Thank you,
Bethany

Subject: External Email Warning RE: External Email Warning Bridge Steet & Miles River Road - Request for Amended OOC

Hi Tim,

Sounds good, I will make sure ConCom sees this email correspondence and the Stormceptor STC O&M Guide. Would you happen to be available to hop on the virtual ConCom meeting scheduled for the evening of May 14th to answer any questions that the members may have for DPW? I just want to be sure that we get approval that meeting so construction does not get delayed.

Please let me know if you have any questions or need any additional information.

Thank you,
Matt

Hi Matt.

Hamilton DPW understands and will adhere to the maintenance requirements per Section 12.2.

Thanks

Tim Olson

Subject: External Email Warning Bridge Steet & Miles River Road - Request for Amended OOC

Good morning, Tim,

Last night, Bill Burnham of TEC represented the Town of Hamilton DPW at the Conservation Commission meeting requesting an amendment to the Order of Conditions for the Bridge Street & Miles River Road Drainage & Paving Improvements Project. The project got continued to the May 14th meeting and we were requested to obtain additional information and feedback regarding multiple aspects of the project. One of the items requested was a written statement by DPW stating they can handle the specific maintenance requirements of the STC 900 water quality unit. ConCom requested that the DPW review the specific language and maintenance requirements for this model and state they are "okay" with utilizing this model given those requirements. Attached please find the Stormceptor STC Operation & Maintenance Guide for your review.

Please let me know if you have any questions or need any additional information regarding this request.

Thank you,
Matt
