

# Announcing New England's First Compost Recycling Program

**...right here in Hamilton & Wenham!**

Join over 550 other Hamilton and Wenham households who have signed up for the new curbside compost recycling program.

This initiative is backed by the Towns of Hamilton and Wenham and follows a very successful 2009 pilot program involving 74 households. **Composting is easy!**

## Benefits:

- You will remove 500 pounds of kitchen waste annually (per average household) from the traditional waste stream...and lower trash collection costs.
- You will reduce pollution, enrich soil, and support community gardening.
- You can use the rich, finished compost in your own yard for FREE!

Join us in helping Hamilton and Wenham make history as the first towns to compost in New England!

The cost to participate is \$6.25/month, or \$75/year. Special latching bins are \$29 (see picture).

For further information and to join:

Call: Trash Hotline: 978-468-5515

Email: [hamilton\\_compost@yahoo.com](mailto:hamilton_compost@yahoo.com)  
[wenham\\_compost@yahoo.com](mailto:wenham_compost@yahoo.com)

You put these items...

- Foodscrap
- Bones, meat
- Dairy products
- Coffee grounds
- Dirty paper towels
- Plants, grass, soil

Into these bins...

Small for  
countertop

Big for  
curbside

To be collected weekly  
and taken to Brick Ends Farm...

And turned into rich compost!

(Available to you for free!)
