

TOWN OF HAMILTON Conservation Commission

The Commission funds an Environmental Education program for students in many grade levels in the Hamilton-Wenham Regional School District. The Conservation Fund, which is generously maintained by interest generated from the Clark Family Fund, provides the money to maintain this excellent program. The program is designed and run by the Massachusetts Audubon Society, in association with the school District, and it is subject to in-depth review and amendment by the Commission annually. The Commission conducts that review usually in late summer or early fall every year. Check the agendas link on the homepage, around that time of year, for the specific date and time of this meeting.
