RE: Waterous Pacer Fire Hydrant

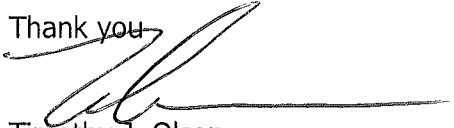

Dear Mr. Bouthilette,

The Town of Hamilton has received an inquiry in regards to approved equals to the specified Waterous Pacer and if the Town will accept any equals.

In accordance with MGL 30B, Section 14, the town requests the Waterous Pacer fire hydrant model of fire hydrant due to the presence of this fire hydrant throughout our current system and for operational knowledge, logistic repairs, parts compatibility and interchangeability, and emergency response for our DPW field crews and the Town of Hamilton emergency response departments.

Please send this to all interested parties.

Thank you

Timothy J. Olson
