

Policy for Placement of Structures on Town Property
Adopted 8/20/01

To the extent not covered by the Hamilton Town By-laws, the Board of Selectmen, acting as Selectmen, Park Commissioners, Water Commissioners and the Board of Public Works, may extend permission and will set standards and criteria relative to the placement of any structures, property, ornamentation or related items on or within town property. Such standards and criteria will include, but not be limited to, the nature of the item(s) proposed to be installed, the suitability of the item(s) to the proposed location(s), the maintenance of said items and the liability attached to such structures. These will be the major considerations by the Selectmen before granting permission with conditions, or before denying permission.
