

TOWN OF HAMILTON

BOARD OF SELECTMEN

March 27, 2020

Dear Hamilton Residents,

During this extraordinary time please know that there is nothing more important to all of us in town government than your safety, and we are doing everything we can to ensure the wellbeing of our residents and town employees.

Everyone in Hamilton Town Hall has shown me this week a pervasive, persistent, and even cheerful resolve. Everyone understands that we are navigating an unprecedented situation, the contours of which are fluid and unpredictable. All town employees and staff have demonstrated great flexibility, creativity, and determination during this time. Town Hall staff have taken initiative, learned to do things in new ways, worked longer hours, remained focused on what is most important, and done it all without complaint.

The town is making every effort to ensure that we can meet the needs of our residents without interruption. Many of our employees can perform their tasks while staying at home. We are reviewing the situation daily and ensuring that our residents and employees are regularly updated.

Information is more important than ever. We pledge to share updates with you as quickly as possible, with full transparency and, as always, with your safety foremost in mind.

We will get through this together as friends, family, colleagues, and neighbors. If you are in need of anything, please feel free to call me anytime at 781-316-5939.

Sincerely,

Jeff Hubbard
Chairman
Hamilton Board of Selectmen
