Hi,

I'm writing to share my concern regarding the proposed variance request for 186 Echo Cove Rd.

I have lived at 255 Echo Cove Rd for over 20 years and went through a long a protracted legal battle to preserve our rights to the other access point across from our home between 246 and 256.

While I am sure there has been considerable thought to the construction and that there are no bad intentions by the family wanting to build, I believe that encroaching on the right of way and reducing the variance would negatively effect the public interest and that of my neighborhood.

Thank you for your understanding and consideration.
